# STYLE AND QUALITY HAS NEVER BEEN SO AFFORDABLE

## OUR MISSION

At Veradek we strive to meet the needs that matter most to our customers – Design, Quality, Sustainability, Service and Price. These five pillars guide how we conduct our business and how we bring our products to market.

From our commitment to integrating all-weather performance and quality into leading designs, to our dedication to using recycled materials, the five pillars are at the core of our product line. At Veradek, we provide the complete package and sell it at the most competitive price in the industry.

The following pages showcase our most popular styles and most exciting new designs for the upcoming year. We hope they will inspire you as they have inspired us.

- The Veradek Team

# PURE SERIES

Veradek's Pure Series is made from a patented plastic-resin composite, designed to withstand the elements. Pure Series planters are flexible, impact resistant and specially treated with UV inhibitors to provide fade resistance. With a Veradek product you can rest assured that you are receiving the perfect balance of design and durability.

# METALLIC SERIES

Veradek Metallic Series planters are not only artfully designed, but are also built with a quality that you can see and feel. Constructed from thick-gauge rust resistant galvanized steel, all Metallic Series planters are fully insulated and protected with a strong scratch resistant finish. Metallic Series planters are crack-proof and are designed to be left outdoors year round in both commercial and residential settings. Veradek Metallic Series planters are built to last.
